OF EMERGENCY SERVICES

SITUATION SUMMARY

911 Outage, Big Sur (Final)

- There has been a fiber cut in the Big Sur area that affects 1,060 AT&T landline and cellular customers only.
- AT&T users in the Big Sur area cannot call 911 from AT&T land lines & cell phones.
- An AT&T crew is on location so Fiber Crews can begin laying new cable and begin splicing work.
- The isolation was caused by a fiber cut caused by a goffer chewing through the cable and not a farmer plowing as originally reported. The fiber affected is between the Big Sur office and the Tandem office
- The Monterey County PSAP and EOC are not affected.
- Fiber fully restored at 1530 hours with test calls made to the Monterey County Communications Center.

Fleet Week, San Francisco, San Francisco County

Fleet Week activities run through October 12th. Activities include the Blue Angels performing, parade of ships on the Bay and ship tours.

Cal OES Activation Status

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- On 10/07/15 at 1153 hours the CSWC received a Drought Continuance Proclamation from Butte County.

Weather of Concern

- The combination of strengthening high pressure near California and offshore wind flow will bring above normal temperatures Friday through Sunday. Temperatures will peak on Friday 10 to 20 degrees above normal, with very slight cooling Saturday through Sunday for portions of Southern California.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

Key Points

10/08 – 10/14

Thursday-Sunday

- Warm temperatures over portions of southern CA may cause stress to vulnerable populations

Monday

- Slightly cooler temperatures with no significant weather hazards expected

Tuesday-Wednesday

- Locally heavy rain across portions of southern CA may cause localized flash flooding concerns

California OES Impact Threat Matrix

-  High Threat
-  Moderate Threat
-  Slight Threat
-  No Discernible Threat

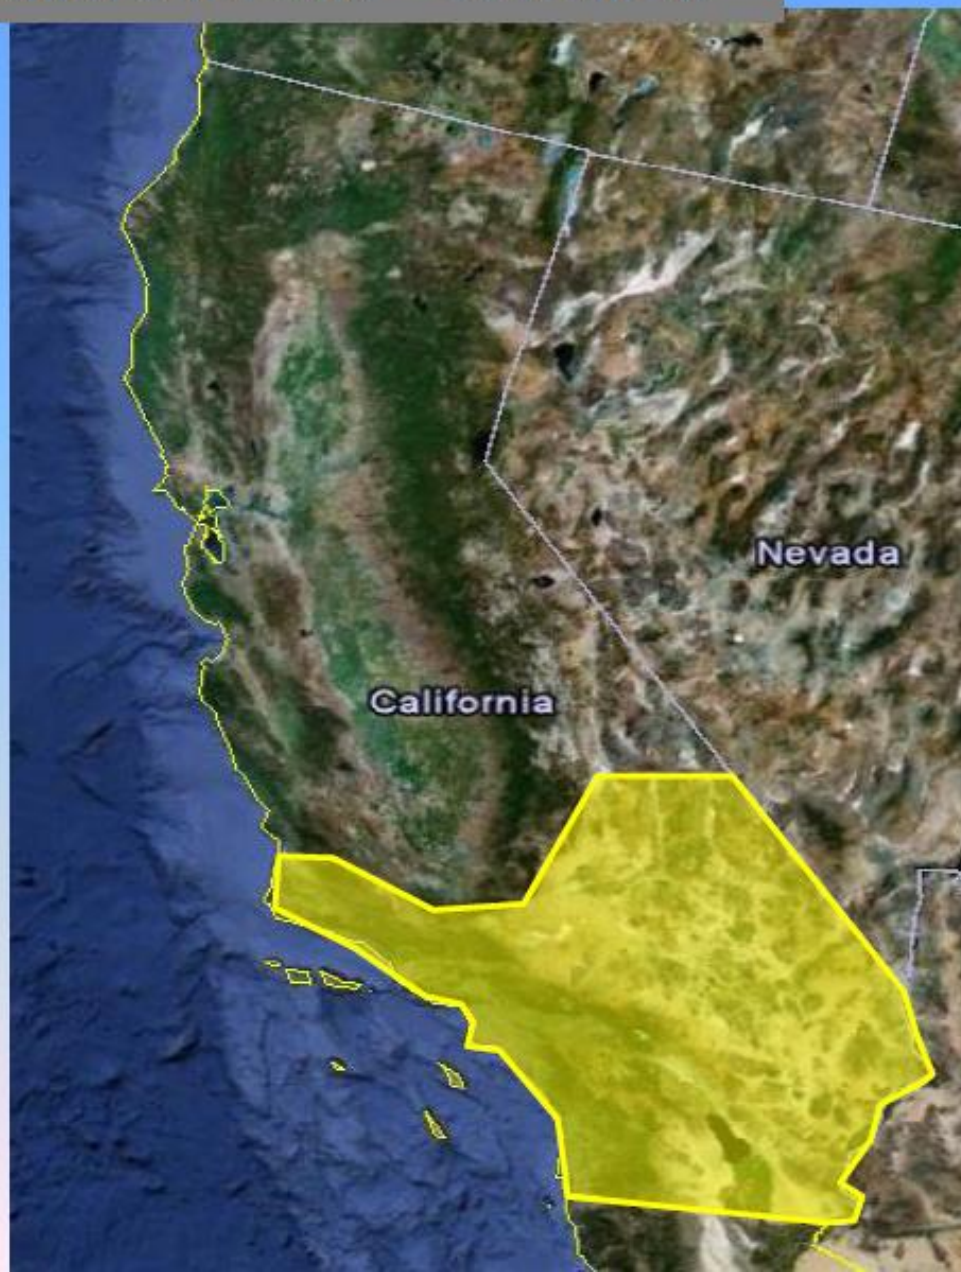

Day 1-4 Weather Hazards

Valid: 0800 Thu – 0800 Mon

- ***Warm temperatures over portions of southern CA may cause stress to vulnerable populations***

	High Threat
	Moderate Threat
	Slight Threat

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Dry and seasonable weather conditions will prevail across northwest California through Friday as high pressure aloft remains over the region. A weak trough will brush far northwest California with the possibility for a few showers on Saturday.

Medford Weather:

A long wave ridge will build along the west coast into Thursday then slide slowly east. This will push the storm track back north. Expect dry conditions into Thursday night with inland highs 10 to 15 degrees above normal over the west side and 15 to 20 degrees above normal east of the cascades and over Northern California.

Reno Weather:

High pressure over northeast California and western Nevada will lead to warm and dry conditions into the weekend. Afternoon highs may approach record levels Friday and Saturday, with increasing breezes for the weekend as the ridge begins to weaken. The weakening ridge will bring slightly cooler, but still above average, temperatures early next week.

San Francisco Weather:

Dry weather conditions along with a warming trend will persist through late in the week as high pressure builds over the state. Temperatures will hold steady through the weekend as the ridge flattens and zonal flow develops aloft.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

High pressure ridge over west coast will keep slow warming trend going through end of week with well above normal temperatures. Cooler temperatures over the weekend and early next week can be expected, but will still be above normal.

Hanford Weather:

An upper level ridge of high pressure will continue to build over central California during the next few days and bring dry weather with a day to day warming trend through Saturday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure and weak offshore winds will bring above normal temperatures through the weekend with the heat peaking on Friday. A slight cooling trend will begin early next week as the high weakens. A low may approach from the southwest on Tuesday bringing the chance of rain to the area.

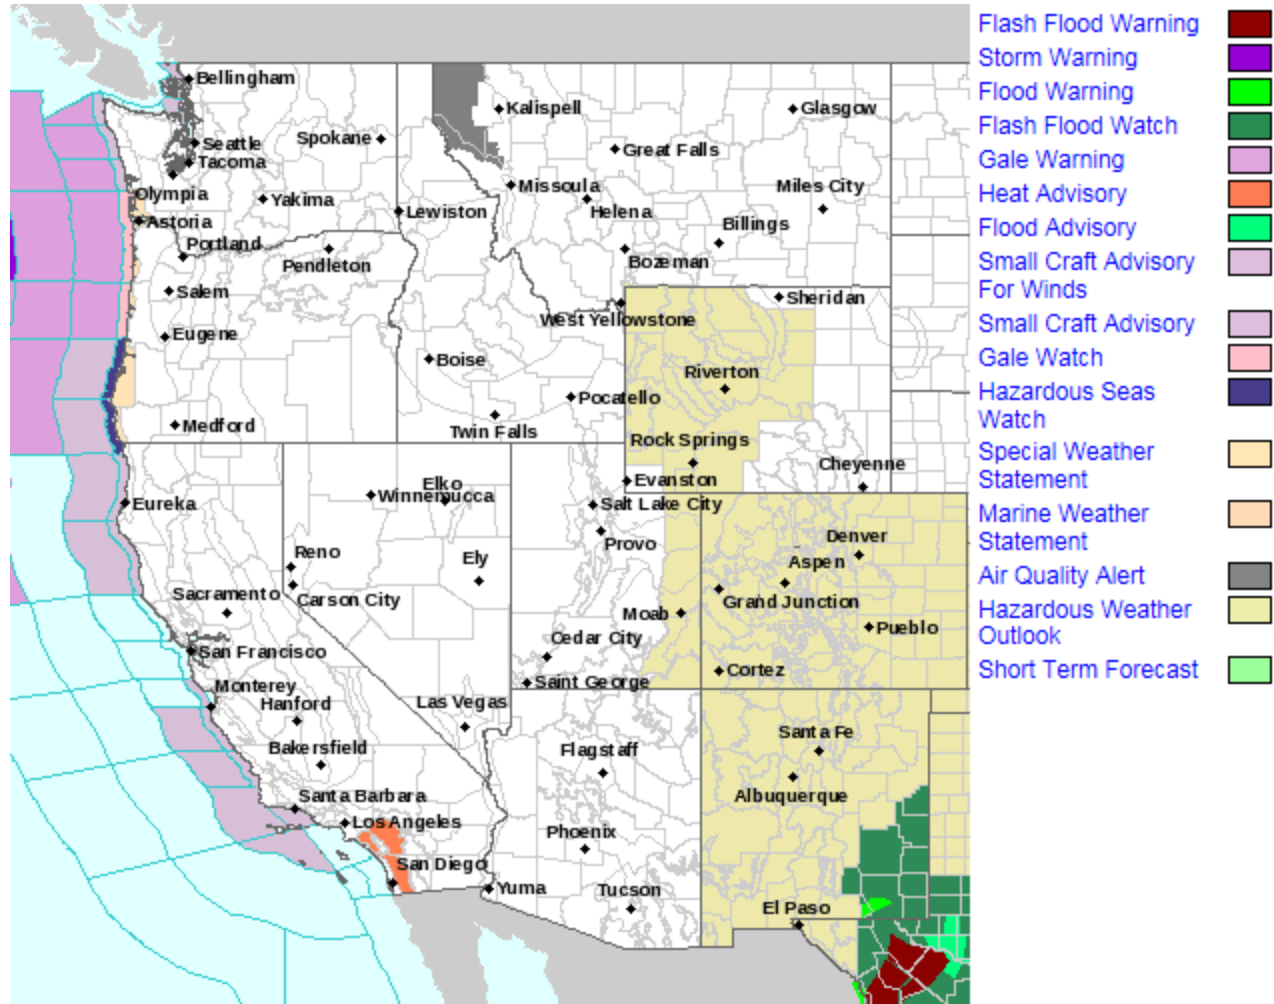

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Hot and dry through Saturday as high pressure builds aloft and offshore winds develop at the surface. Gradual cooling next week and a possible return of wet weather for mid or late next week.

Southeast California Weather:

A low pressure system will sink south into Mexico through the remainder of the week leaving the southwestern states under a drier and more tranquil weather regime. Above normal temperatures will return to the region today with a warming trend expected through at least early next week.

STATE WEATHER MAP

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 60 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 27 Counties: Butte, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County) and City of Willits (Mendocino County).

CAL OES MISSIONS

New Cal OES Missions

2015-LAW-18797-10/7/15, 0910 hours - Tehama County Sheriffs Office has requested the Region III MIGU and Cal OES Auxiliary Communications Service (ACS) personnel for a Child Abduction Response Team (CART) Exercise. The LDO coordinated with T-Com AC to secure ACS personnel and deployment of the MIGU III unit. The Exercise is scheduled for October 27, 2015 in Red Bluff, California. **Mission Ongoing**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
